The information I provided above is accurate, and the Individual On-Site Wastewater Disposal system described herein will meet all the requirements of *ARSD 74:53:01* and *Custer County Ordinance Number 2*.

Certified Installer Signature

Date

Approval does not in any way release the applicant/owner from the responsibility that the on-site wastewater system will be operable when construction is completed.

Wastewater disposal systems other than conventional on-site household septic systems and systems intended to service commercial or industrial buildings require prior approval of the South Dakota Department of Environment & Natural Resources; Phone 605-773-3651. An *Individual Wastewater Disposal Permit* issued by Custer County is still required for the installation of unconventional and commercial systems.
